

Daniel Colin

Mid/Senior Web and Graphic Designer

With a decade of experience contributing to the events and teaching industry as a skilled web and graphic designer, I've nurtured both a keen eye for aesthetics and a robust set of technical skills. Fueled by an unyielding passion for web development, I am now seeking to transition my expertise into a web developer role. My journey has instilled in me a deep appreciation for merging creativity with cutting-edge technology, and I'm excited to bring this synergy to crafting innovative digital experiences.
